

HOW TO USE THE ATOMBERG APP

Google is a trademark of Google LLC.

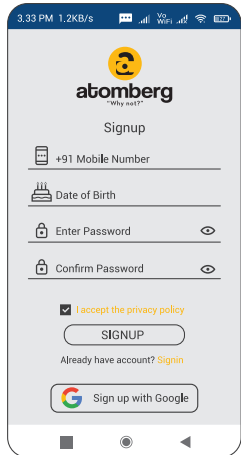

1 Getting started

- Launch the Atomberg app and click on 'Signup' if you are a new user or 'Login' if you are an existing user. (refer 1.1)
- New users: Fill in all required information and set your password. A verification code will be sent on your registered mobile number for confirmation.
- Existing users: Enter your mobile number and password. If you have forgotten your password, you can log in using an OTP which will be sent on your registered mobile number.
- You can also login with your Google account. (refer 1.2)

****First, install Google Home or Amazon Alexa on your smartphone or tablet. Using the Atomberg app, you must then set up the fan. If facing an issue with this, kindly remove the fan from your Atomberg app and reset the app. (section 5)****

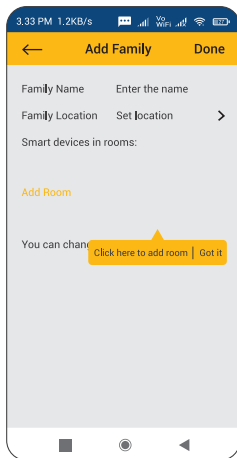

1.1

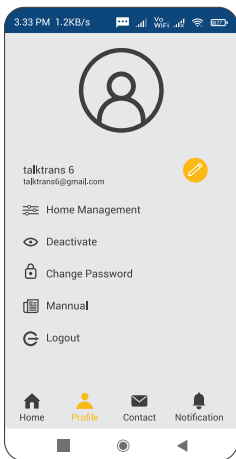

1.2

2 Setting up user's Smart Home

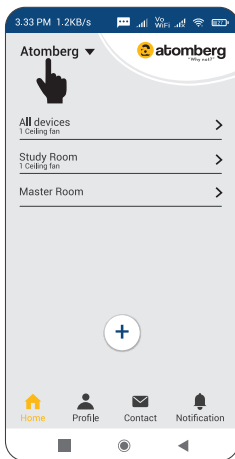

- a. Create a smart home by entering your family name and family location.
(refer 2.1)
- b. You can select the number of rooms to be added in your smart home to suit your requirements.

- c. Once your family has been added, you can now view home page where you can view, control, monitor and/or manage the Atomberg Fan(s) added to your family. (refer 2.2)
- d. You can create multiple families and switch between families using the drop down menu at the top left corner of the home screen. Refer Home Management for more details. (refer 2.3)

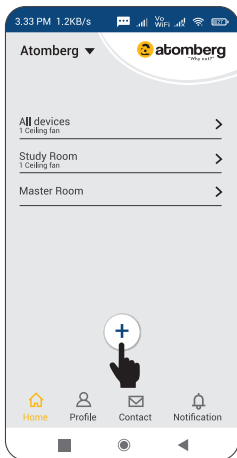

2.2

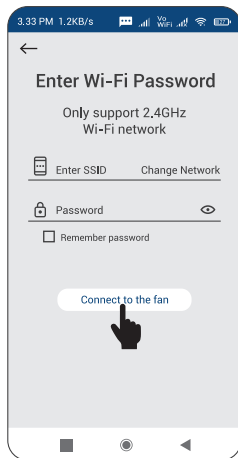

2.3

3 Adding a fan

- In case you have connected the App with the Atomberg Fan for the first time, no set up is required, but if the fan's connection needs to be reset, refer to Resetting Fan Connection (5th section).
- Make sure a 2.4GHz WiFi network is present and the Atomberg app is installed on your device, which is also connected to the same WiFi network
- Make sure that the fan is powered ON using a wall switch.
- Open the Atomberg app.
- Select the family in which device needs to be added. Click on Plus (+) at the bottom of the screen. (refer 3.1)
- Enter the SSID and Password of the WiFi network. Click on 'Connect'. (refer 3.2)
- After the connection is established, you will be able to see the list of connected Atomberg Fans.

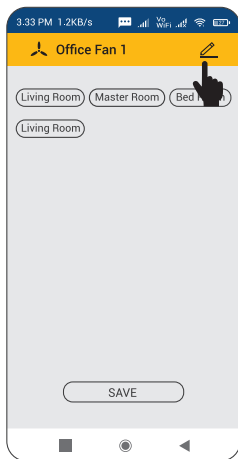

3.1

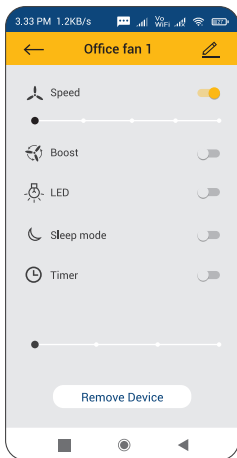

3.2

-
- h. You can assign the fan a name of your choice, and add it to a room. (refer 3.3)
 - i. Now you will be able to see the added device on your family home screen, listed under the room or under the 'All Devices' tab.

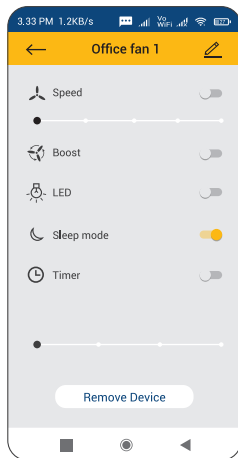

4 Controlling fan Function and Features

- a. Go to the home screen and select the room whose fan you wish to control.
- b. Click on the fan name from the available list of devices.
- c. Now you will be able to view the fan control screen.
- d. Turn On/Off: Fan can be turned On/Off using the Button in front of Speed. (refer 4.1)
- e. Speed: Fan speed can be controlled by using the speed bar.
- f. Boost Mode: Boost mode can be turned On/Off.
- g. LED: You can turn On/Off the LED Buttons.
- h. Sleep Mode: You can turn On/Off the Sleep Mode. (refer 4.2)
- i. Timer Mode: You can turn On/Off the Timer Mode, and can select the time period of the preset 1 hour, 2 hours, 3 hours and 6 hours.

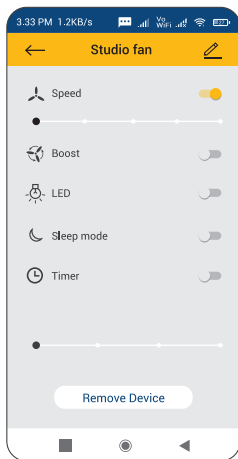

4.1

4.2

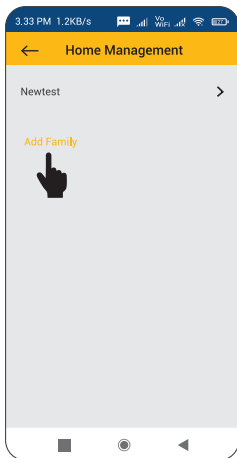

5 To Reset the fan connection

- a. You must reset the fan in case of facing a connection error, or, in case of change of router/password.
- b. Fan connection can be reset using the app. Press 'Remove Device' in Device Control to reset the WiFi connection. (refer 5.1)
- c. To reset the connection manually, use the following sequence using your remote controller.
 - i. First turn off the fan using the remote controller.
 - ii. Then press the LED button of the remote controller for 5 seconds until the LEDs blink.
- d. You will now see a fast rotating LED pattern.
- e. Now instructions from section 3 (Adding a Fan) can be followed to add your fan in the Atomberg app.

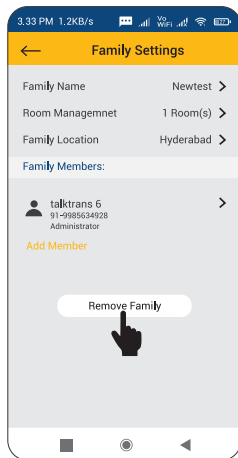

6 Home management

- a. The Home Management option can be accessed under the Profile Tab.
- b. Add Family Members (refer 6.1)
 - i. You can add or remove family members using Home Management.
 - ii. When Home Management is selected , it will allow you to see a list of family members.
 - iii. You can add a new family member by selecting 'Add Family'.
- c. Remove Family (refer 6.2)
 - i. You can remove a family member by selecting and then choosing the 'Remove Family' option.
